

CAPABILITY STATEMENT

Experienced Maintenance Professionals

- ✦ Mobilise our tap-on-tap-off specialist team quickly: on-demand labour hire solutions with no locked contracts.
- ✦ Reduce the time, cost, and labour required for planned and unplanned maintenance resulting in fleet optimization.
- ✦ Our general practice involves fleet condition audits, and assistance with preventative maintenance plans.
- ✦ Quality skilled labour placement will contribute to minimizing cost for spare parts and supplies by ensuring maintenance workflow occurs with transparency, accountability, and speed minimising operational hours lost.
- ✦ Our specialised approach provides our customers with a superior alternative to many of the traditional OEM channels by combining quality, competitive pricing and responsiveness.
- ✦ All JAWG technicians have a respectful approach to multicultural sites and locations. Our senior technicians hold extensive international experience and conduct an adaptive approach to challenges and conditions.
- ✦ All JAWG Auto Electricians mobilise to site with extensive diagnostic equipment resulting in fast corrective repairs and minimal MTBF.
- ✦ JAWG technicians work with our clients preventative maintenance strategies to reduce costly breakdowns and minimise operational failures.

Safe Work Environment

Our mission is to provide a safe and healthy workplace while maintaining our reputation for quality work delivered on time, even in testing mining environments. Our workforce adopt the our Workplace Health and Safety Policy to shape our present and future for success. Our team are committed to continuously improve health and safety in the workplace through effective management systems, consultation and increased health and safety awareness of management and workers.

Who We Are : Our Leaders

Rawry, Senior Auto Electrician, Company Director

Experienced business development leader and senior auto electrical technician, primarily for an international mining labour specialist, Rawry brings the wholesome on the ground experience to the Company. Having placed an array of trade qualified personnel across the globe on both short and long term labour assignments, Rawry understands the industry intricacies and how best to assist. Some of his on the ground technical career experience includes servicing, maintenance, repair, rebuild and fault finding across a variety of fleet including Caterpillar, Komatsu, Grove, and Liebherr. He has also trained local international staff to OEM support level, who have since led successful careers. His patience and technical mind ensure your operational needs are understood and the right personnel from our team are matched with your needs.

Clare Woodend, Contract Specialist, Company Director

Clare holds fifteen years of contract specialist experience in the onshore mining sector. Having lived a large percentage of her career in the Pilbara, Western Australia, she has witnessed what is required for these sometime tough, yet rewarding conditions. Supporting projects and clients including BHP, Chevron, Shell, Woodside, and Rio Tinto, she is familiar with practices and procedures required to create and support successful teams.
